

## **Graham Fox**

### **President and CEO of Equipolymers BV**

Graham Fox is President and CEO of Equipolymers BV, a joint venture between The Dow Chemical Company (Dow) and Petrochemical Industry Corporation (PIC), Kuwait. He is based in Horgen, Switzerland.

Fox has more than 30 years experience with Dow in business, functional and geographic leadership roles, which have seen him working for Dow in the UK and Nordic, The Netherlands, the UAE (Dubai) and Switzerland. During this time he has led Dow businesses in plastics, agricultural chemicals, metals, pharmaceuticals and coatings. He led the European plastics purchasing function, and prior to that had extensive commercial experience through various sales, marketing and business roles.

As Commercial Vice President of Dow Europe, Fox led the plastics businesses of polyethylene, polystyrene, engineering plastics (comprising polycarbonate, ABS/SAN and engineering copolymers) and specialty plastics (including Saran\* resins and films) at various times from 1988 until 2000.

Resident in Dubai in the 2000-2005 time period, Fox served as Geographic Vice President for Dow Middle East, Africa and Indian sub continent and served on the board of four companies including EQUATE, MEGlobal and Equipolymers, having extensive experience in the Middle East with joint venture partners.

In 2006, he was named President and CEO of Equipolymers, returning to Horgen, Switzerland to lead this business at a critical phase in its development.

Fox holds an MBA from City University, Zurich and is a Chartered Director, Institute of Directors UK.
